### CONCETTA FORCHETTI, M.D., Ph.D.

Concetta Forchetti, M.D., Ph.D., is double board certified in Neurology and Pain Management, with a Ph.D. in Neuropharmacology. She has over 20 years of clinical research experience. She has conducted over 100 Alzheimer's Disease trials and well over 150 clinical trials in total. In addition to her research focus, Dr. Forchetti maintains a successful private practice through the Memory Disorders Center at the Alexian Brothers Neurosciences Institute. Frequently published in peer-reviewed medical journals such as Journal of Clinical Neuropharmacology, Neurology and the Dementia Review Journal, Dr. Forchetti is truly one of the nation's foremost experts in Alzheimer's and Dementia research.

### ALEXIAN BROTHERS NEUROSCIENCES INSTITUTE

The Alexian Brothers Neurosciences Institute (ABNI) has a well-established program for clinical research. ABNI has attracted leading specialists in treating neurological disorders. The Institute was created as part of Alexian Brothers Health System's commitment to using the latest neurological advances and technology to help patients with these conditions. ABNI has been ranked among Chicago's top hospitals in Neurology by US News & World Report.

Dr. Forchetti formed the clinical research program at ABNI to provide patients with access to novel investigational therapies in a variety of neurological areas including Alzheimer's Disease, Multiple Sclerosis, Parkinson's Disease and Epilepsy. The research staff is proficient and certified in all standard CNS rating scales including ADAS, MMSE, CDR, CIBIC, UPDRS, Ham-D and NPI.

## FACILITY

ABNI is located on the campus of the Alexian Brothers Medical Center, a 387-bed acute care hospital serving the densely populated northwest suburbs of Chicago. The research clinic's location offers immediate proximity to a wide variety of ancillary services such as X-ray, infusion services, CT scans, MRI and PET. The facility maintains a double-locked, limited access medication storage, and a CLIA-waived processing laboratory with refrigerated, -20 and -70 degree sample storage, and immediate access to a local lab for stat analysis. ABNI utilizes a central IRB for all regulatory submissions.
