MIDWEST CLINICAL RESEARCH CENTER

MIDWEST CLINICAL RESEARCH CENTER

Midwest Clinical Research Center is an inpatient/outpatient research facility located within a large medical campus, less than two miles from a hospital with full emergency services. This location affords wide visibility to potential subjects and referring physicians with close proximity to a wide variety of ancillary services such as X-ray, infusion services, CT scans, MRI and PET.

The research site includes:

- 19-bed clinical research unit with private and semi-private rooms
- Patient recreation/dining areas
- Dedicated, controlled and secure indoor smoking room
- CLIA-waived laboratory
- -20 and -70 degree freezers
- Refrigerated centrifuge
- Temperature-controlled, double-locked medication room with controlled key code and video monitored access
- Large source document room with controlled key code access
