ENDEAVOR CLINICAL TRIALS

San Antonio, Texas

For business development inquiries, please contact Thievon-Wright Consulting Group at 908.756.4411.

Endeavor Clinical Trials, a subsidiary of Evolution Research Group, specializes in postoperative pain trials, as well as podiatry, dermatology, diabetes and vaccines. Endeavor Clinical Trials is an inpatient and outpatient research facility. Our site has over 20 years of clinical research experience, completing more than 190 trials with an average of 127% enrollment (compared to the contracted study goal).

RESEARCH FACILITY

Endeavor Clinical Trials conducts multiple post-operative pain studies following third-molar extraction, bunionectomy, hernia repair, abdominoplasty, breast augmentation, TKA/THA, bariatrics and diabetic foot ulcer procedures, among others. Endeavor Clinical Trials has a dual model approach to inpatient clinical research including access to hospital beds at prestigious local hospitals, as well as our newly opened, dedicated six-bed in-patient (IP) unit.

Endeavor Clinical Research Trials' clinical research team is trained on mitigating the placebo effect in analgesic trials. They focus on quality and consistency by reproducing analgesic methodologies throughout the entire study.

Endeavor Clinical Trials has access to the highest quality patients and associated data. The site has a strong relationship with private practice physicians in San Antonio for patient referrals, which contributes to its strong recruitment performance. It is known for its exceptional safety preparedness, with all staff trained to BLS certification, ACLS certified personnel, PALS certified personnel, EMT-P staff and a crash cart on-site.

Endeavor Clinical Trials also has an excellent relationship with two hospitals located in close proximity to the research facility.

Foundation Surgical Hospital of San Antonio

- 22-bed hospital with five beds dedicated to research
- Six operating rooms
- Full-time pharmacist experienced in clinical research

Christus Santa Rosa Hospital Alamo Heights

- 36-bed hospital with eight beds dedicated to research
- Guardian of Excellence Award - national recognition for its patients' experiences
- Full-time pharmacist experienced in clinical research

**Average of 10+ years of clinical research experience per staff member.*

ENDEAVOR CLINICAL TRIALS

Richard A. Pollak, D.P.M., M.S., is a key opinion leader and board-certified by the American Board of Foot and Ankle Surgery. He has been practicing for over 35 years in San Antonio, Texas and has been the Principal Investigator in more than 125 studies. He is an expert in multiple areas of podiatry including toenail fungus, athlete's foot and diabetic foot ulcers.

Dr. Pollak received his Doctor of Podiatric Medicine from the California College of Podiatric Medicine and later received his Master of Science degree from the Pennsylvania College of Podiatric Medicine.

Dr. Pollak has authored and published many scientific articles, and he is a noted national lecturer.

Constance M. Barone, M.D., is board-certified by the American Board of Plastic Surgery. She has been recognized as one of America's Top Surgeons for 2016 by the Consumers' Research Council of America.

Russell Stanley, D.P.M., is a Doctor of Podiatric Medicine and has participated in over 25 clinical trials as an Investigator at Endeavor Clinical Trials.

Dempsey D. Gordon Jr., D.O., serves as the Medical Director of Endeavor Clinical Trials. He is board-certified by the American College of Osteopathic Family Physicians with research experience in conducting endocrinology and analgesia clinical trials.
