# WOODLAND RESEARCH NORTHWEST

Rogers, Arkansas

*For business development inquiries, please contact Thievon-Wright Consulting Group at 908.756.4411.*

Woodland Research Northwest, a subsidiary of Evolution Research Group, is an inpatient and outpatient research facility experienced in conducting simple and complex trials in psychiatric and neurological disorders, pain indications, addictions, sleep disorders as well as additional non-CNS indications. Woodland Research Northwest offers research to rural and urban area in Arkansas, as well the surrounding areas in Mississippi, Louisiana, Texas, Oklahoma and Tennessee.

## RESEARCH FACILITY

Woodland Research Northwest resides in a purpose-built 24-bed research facility. Our site is designed for the comfort and safety of all patients, with semi-private rooms, laundry facilities and full kitchen. Each resident has his or her own TV, access to game room, two living areas and two controlled and secure outdoor spaces that can also be used for smoking. An indoor smoking room is equipped with a recirculating ventilation system. Woodland Research Northwest is planning for further expansion with a 12-bed CPU designed for special populations. Our recruitment staff utilizes well-established initiatives including community outreach. We also have access to patients from our investigators' private practices and local affiliations. Woodland Research Northwest is located less than a mile from Mercy Hospital.
