ADVANCED MEMORY RESEARCH INSTITUTE OF NEW JERSEY

Toms River, NJ

INVESTIGATOR

Sanjiv K. Sharma, M.D.

SITE DIRECTOR AND OPERATIONS MANAGER

Anna Brocco, Pharm.D

PATIENT DATABASE = 1,750

STUDY EXPERIENCE TOTAL = 50

STUDY INDICATIONS

Alzheimer's Disease (Mild, Moderate, Severe)

MCI/Prodromal Alzheimer's Disease

Agitation in Alzheimer's Disease

Post Herpetic Neuralgia

Major Depressive Disorder - Elderly

Infectious Disease

Infections (CAP, etc.)

Sanjiv K. Sharma, M.D.

- Owner, founder and Principal Investigator of Advanced Memory Research Institute of New Jersey
- Board Certified Internist and Geriatric Specialist
- Fellowship in Geriatric Medicine at Jersey Shore Medical Center and Chief Resident
- Graduated from medical school, Mahatma Gandhi Medical Memorial College in Jamshedpur, India in 1991
- Established the Geriatric Medical Center in 2000, one of the largest private geriatric practices in the region
- 17 years of clinical research experience in Phase I, and has worked in many therapeutic indications, including CNS, hypertension, diabetes, cardiovascular and QTc studies, and invasive studies

FACILITY / CAPABILITIES

The Advanced Memory Research Institute of New Jersey (AMRINJ) is a dedicated clinical research unit specializing in Alzheimer's disease and related dementia trials. After opening its doors in 2009, the research site was immediately brought on to rescue a struggling Phase II study in Alzheimer's disease patients, and quickly became the top enroller on the trial. Since that time, Dr. Sharma and his staff have participated in several other important studies, including those sponsored by several of the top 10 pharmaceutical companies.

With the staff's various backgrounds in geriatric medicine, internal medicine, nursing, neuropsychology, venipuncture, recruitment, etc., AMRINJ is well-equipped to run a variety of clinical trials in cognitive disorders as well as other psychiatric and general medicine therapeutic areas.

- Located in Ocean County, New Jersey, which has the highest percentage of the over-65 aged population in the state
- Two miles from Community Medical Center (CMC) where Dr. Sharma has been a staff member since 2000
- CMC's Chairman of the Geriatric Medicine Department
- Occupies 4,500 square feet of well-appointed office space including four exam rooms, a processing laboratory with refrigerated centrifuges, secure temperature-controlled medication storage, dedicated monitoring space, an infusion suite, conference area and multiple offices for patient interviews, rating and study related procedures
- Top enroller on multiple Alzheimer's disease studies
