

Thievon-Wright Consulting Group, a subsidiary of **Evolution Research Group, LLC**, specializes in the placement and management of clinical trials for an elite network of experienced, owned and affiliated, clinical research sites geographically dispersed across the U.S. and Puerto Rico. Evolution Research Group is the largest, independent clinical research site company in the U.S., and the leader in CNS clinical study execution. Our group of inpatient and outpatient, early and late phase research units, is focused on conducting simple and highly complex trials in psychiatric and neurologic disorders, pain indications, addictions, sleep disorders as well as non-CNS indications.

Our network is comprised of 20 clinical research sites:

- **12 Inpatient Units (with 384 beds):**
 - Clinical Pharmacology
 - Clinical Research
 - Pediatric and Adolescent with PK Ward
 - Specialty Post-Op Pain Clinics
- **20 Outpatient Units**

Thievon-Wright Consulting Group offers consulting services to pharmaceutical and CRO clients.

- KOLs in Schizophrenia, Clinical Pharmacology, Post-Op Pain, Pain, Alzheimer's Disease, Sleep Disorders, Depression, Podiatry
- General Consulting: Study Design, Protocol Review and Budget Planning
- Scientific Advisory Board Planning and Implementation
- Vendor Resources: Rater Training Services, Centralized Data Services (ECG, PSG, EEG, qEEG, Actigraphy), Medical Writing Services
- Study Feasibility and Site Recommendation

The **Evolution Research Group** network of Portfolio Sites and Affiliate Sites focuses on specialized populations and healthy volunteers.

CNS POPULATIONS:

- **Psychiatry: Schizophrenia** (adult and adolescent), **Bipolar Disorder** (adult and pediatric/adolescent), **Addiction** (alcohol, cocaine), **Opioid Use Disorder, Depressive Disorders** (adult and pediatric/adolescent), **ADHD** (adult and pediatric/adolescent), **Anxiety Disorders, Eating Disorders, PTSD, OCD**
- **Neurology: Alzheimer's Disease, Multiple Sclerosis, Parkinson's Disease, Essential Tremor, Sleep Disorders** (insomnia, narcolepsy, RLS, apnea), **Tourette's Syndrome** (adult and adolescent), **Huntington's Disease, Tardive Dyskinesia, Epilepsy**
- **Pain: Post-Op Pain** (breast augmentation, abdominoplasty, bunionectomy, third-molar extraction, hernia repair, TKA/THA, bariatrics and diabetic foot ulcer procedures), **PHN, Fibromyalgia, OA, DPN, Gout, CRPS, Headache** (Migraine/Tension)

HEALTHY AND NON-CNS POPULATIONS:

- **Healthy Volunteers: First-in-Human, First-to-File, PK/PD, SAD/MAD, DDI, FE, BA/BE, QTc/TQT**
- **Renal Impairment and Hepatic Impairment**
- **Geriatric and Health Geriatric**
- **Smoking**
- **Vaccine**
- **Endocrinology: Type 1-2 Diabetes, Obesity**
- **Post-Menopausal**
- **Sexual Dysfunction Disorders**
- **Liver Disease: Hepatitis B and C, NASH**
- **Podiatry**
- **Asian Bridging**
- **Gastrointestinal: GERD** (adult and pediatric)
- **Respiratory: Asthma** (adult and pediatric/adolescent), **COPD**
- **Cardiovascular Disorders: Hypertension, Hypercholesterolemia**

“ The success of any clinical trial is largely dependent upon the quality of the investigative sites and the vendor organizations selected by a sponsor or CRO. ”

—Lori Wright, CEO,
Thievon-Wright Consulting Group

Thievon-Wright Consulting Group represents sites performing specialized procedures in difficult populations as well as normal healthy volunteers.

- PSGs, EEGs, qEEGs, Actigraphy
- CSF/Continuous CSF Sampling
- PET Imaging, BOLD MRI, fMRI
- Drug Delivery Administrations – Oral, IV, SQ, Inhalation, Depot, Transdermal
